

The methodology regarding the evaluation of teacher's opinion towards the teaching process

Art. 1. The assessment of teacher's opinion towards the teaching process is aimed at the continuous improvement of quality in UMFCD and it is a tool for implementing the quality assurance policy, assumed by the university management.

Art. 2. The evaluation of the teacher's opinion towards the teaching process is carried out annually, and the answers are confidential.

Art. 3. The participation of teaching staff in the evaluation of the opinion towards the teaching process is voluntary and strongly encouraged by the university, all in the interest of active participation in university life and the continuous development of quality.

Art. 4. The evaluation of the teacher's opinion towards the didactic process is carried out at the level of the entire academic community, per academic year, at the beginning of the second semester. The questionnaire in the Annex is used for this purpose.

Art. 5. The evaluation questionnaire is sent as a completion link to the institutional e-mail address to the Directorate of Computer Systems and Digital Communications.

Art. 6. The link is then sent to all teaching staff, guaranteeing the confidentiality of the answers.

Art. 7. The involvement of teaching staff in the process of annual evaluation of the quality of the teaching process is consistently encouraged by the university, for the development of quality in both professorial activities and overall academic life.

Art. 8. The answers are processed in aggregate form, by the Department for Quality Management, in the form of an annual analysis. The results of this analysis are discussed in the Board of Directors and in the Senate, as the case may be, and are brought to the attention of the academic community, being included in the rector's report.
