

**Acad. Victor Voicu
Studii doctorale
domeniu: farmacologie și toxicologie clinică
Tematică și bibliografie**

1. Aspecte farmacoclinice ale sindromul secretiei inadecvate de ADH indus de agentii psihotropi.
2. Consecințe farmacogenetice ale izoenzimelor CYP450 și impactul asupra monitorizării răspunsului therapeutic în psihofarmacologia clinică.
3. Analiza longitudinala a sindroamelor hepatotoxice induse de medicatia psihotropa.
4. Evaluarea farmacoeconomică a managementului schizofreniei cu antipsihotice cu actiune prelungita, versus antipsihotice cu administrare orală.
5. Toxidromul anticolinergic, aspecte farmacoclinice in practica psihiatrica.
6. Managementul toxidromelor generate de terapia cu antipsihotice atipice.
7. Impactul interactiunilor farmacologice asupra calitatii vietii in cazul pacientilor diagnosticati cu depresie majora si comorbiditati somatice.
8. Interacțiuni PK/PD ale neuropsihotropelor care interferă cu neuromedicația serotoninergică.
9. Studiu clinic ale antihipertensivelor cu efecte cardioprotectoare (prevenirea insuficienței cardiace).
10. Interacțiuni PK/PD relevante clinice ale antihipertensivelor.
11. Sindromul serotoninergic, incidență și relevanță clinică în contextul terapiei antidepresive actuale.
