

## CURRICULUM VITAE

<b>Family Name</b>	Ewida
<b>First Name</b>	Maged-Muhammad-Mokbel-Ali
<b>Sex</b>	
<b>Date &amp; place of Birth</b>	

### **CONTACT DETAILS:**

<b>Preferred postal address</b>	<b>Other postal address</b>
<b>Country of residence</b>	
<b>Country of citizenship</b>	
<b>Marital status</b>	
<b>Phone number</b>	
<b>Email address</b>	

### **ACADEMIC RECORD:**

<b>Year</b>	<b>Academic Institution</b>	<b>Degree(s) gained</b>	<b>Subject</b>
2007	Mansoura Faculty of medicine, Mansoura University, Egypt	M.B, B. Ch	Bachelor of medicine and general surgery

2015	Carol Davila University of medicine and pharmacy, Bucharest, Romania	Consultant	Speciality certificate in cardiology
2014-2016	University emergency hospital of Bucharest - EAPCI/ESC	Subspecialty training	Certificate of excellence in interventional cardiology - EAPCI e-learning platform (training was performed at the University emergency hospital of Bucharest, 2014-2016)
March 2016	Romanian ministry of education	Basic medical degree qualification	Echivalence of studies in general medicine and surgery performed outside EU
2018	ESC/EAPCI	Subspecialty certificate	Subspecialty European accreditation in interventional cardiology (upon succeeding ESC/EAPCI examination held in Munich, Germany, August 2018)
2020	ESC/EAPCI	Subspecialty certificate	Full European accreditation in interventional cardiology (part A + part B certification)
2019	Romanian ministry of health	Subspecialty certificate	National certificate of complementary studies in interventional cardiology (March 2019)
2016-present	Carol Davila University of medicine and pharmacy, Bucharest, Romania	In progress	PhD studies in interventional cardiology
2018-2019	Lucian Blaga's University, Sibiu, Romania	Researcher	Next-Cardio research project, investigating the use of computerised fluid dynamics analysis in studying aortic remodelling after endovascular treatment of complex aortic diseases
2020-2021	Carol Davila University of medicine and pharmacy, Bucharest, Romania	Cursant	Enrolled in national programme for accreditation in pace-makers, defibrillators and CRT devices' implantation and management (12 months course)

## **PREVIOUS TRAINING EXPERIENCE:**

**General Cardiology:** Cardiology residency training, conform the Romanian residency regulations in cardiology from 2009 till 2015, mostly taking care of emergency patients after acute myocardial infarction, acute pulmonary embolism, pulmonary oedema, acute myocarditis. Performed more than 200 24-hours on call duties and full time commitment during the general cardiology training.

**Interventional Cardiology:** Started since August 2013. Finished EAPCI training course (e-Learning platform, certificate of excellence in interventional cardiology) since July 2014 till July 2016. During the period of my training, participated in more than 400 PCI procedures and 800 angiography procedures, from which, around 150 PCI procedures and 400 coronarography procedures as a first operator (procedures documented in the ESC e-learning platform log-book as well as personal procedural log-book). After training, worked as an independent interventional cardiologist in public and private hospitals on a rate of > 200 PCI per year. Managed to obtain both national and European accreditation of my training in both cardiology and interventional cardiology.

## **CURRENT POSITION:**

Interventional cardiology consultant, performing coronary diagnostic and PCI procedures as a solitary-operator (no second operator in almost all interventions), on daily basis at public emergency hospital located in Bucharest, Romania. Also performing on-call duties in general cardiology beside ambulatory consultations and academic activities. Since November 2020 till present the hospital is exclusively caring Covid19 patients.

## **POSTGRADUATE CAREER:**

<b>Dates</b>	<b>Place of work</b>	<b>Positions held</b>
May 2007 - May 2008	Mansoura university hospitals, Egypt	House officer / General practitioner
October 2009 - November 2015	University emergency hospital of Bucharest, Romania	Resident doctor in Cardiology
April 2016 - December 2016	Multiple ambulatory Clinics, Bucharest, Romania	Cardiology Specialist
December 2016 - November 2017	"Bagdasar Arseni" emergency hospital, Bucharest, Romania	Cardiology Specialist
January 2016 - Present	University of Medicine and Pharmacy - Carol Davila, Bucharest, Romania	Scholarship PhD student
July 2018 - April 2019	Lucian Blaga University, NextCardio project	Researcher
December 2017 - Mai 2019	Polisano European hospital, Sibiu, Romania	Interventional Cardiologist, Cardiology Specialist

October 2019 - present	Sf. Ioan clinical emergency hospital, Bucharest, Romania	Consultant interventional Cardiologist
------------------------	--	--

European Heart Journal	Unblocking the unknown - A journey through a hidden anomalous left anterior descending artery of a 23 years old male with acute anterior ST elevation myocardial infarction	European Heart Journal (2015) 36 (Abstract Supplement), 1225	C. Udroi, B. Suran, L. Trasca, D. Vinereanu
<b>Details of papers in press</b>			
<p>A case accepted for oral presentation in the ESC congress 2015 (Session: Nothing as it seems in interventional cardiology, organised by COT), therefore, it has been published in the European Heart Journal (ESC congress 2015 abstract supplement).  This case of a 23 years old male with two abnormal coronary origins, who suffered an occlusion of the proximal LAD, invites us to think the possible relationship between abnormal coronary origin or course and accelerated atherosclerosis through different mechanisms as micro-vascular compression and decreased shared stress.</p>

Eurothrombosis 2015 abstract book	Myocardial infarction and atrial fibrillation - Experiencing the fine line between blocking and bleeding	Eurothrombosis 2015 abstract book, oral communication section, page 25	N. I. Toma-Vasile, M. Florescu, D. Vinereanu
<b>Details of papers in press</b>			

A case accepted for oral presentation in Eurothrombosis summit 2015, out of three selected cases. The session was organised by the young thrombosis group of ESC and took place in October, 3rd 2015 in Como, Italy. The case was published in Eurothrombosis 2015 abstract book.

This case is highlighting the important balance between the risks of hemorrhage and of athero-thrombosis in patients with an indication of a triple anti-thrombotic therapy (DAPT and OAC). In special cases of high risk-patients with multiple complications, it may be wise to consider the new OAC and anti-platelets.

Acta medica Transilvanica (B+)	Minimal individual haemostats (MIH) - Feasibility in conventional and distal trans-radial approach	AMT, vol. 26, no. 2, 2021, p. 30-32	N. Florescu, C. Sinescu
<b>Details of papers in press</b>			
Single-centre study analysing new technique for gradual haemostats after trans-radial approach, in both conventional and distal techniques.			

### **ACTIVE SCIENTIFIC PARTICIPATIONS:**

- **ESC congress 2015**, London, UK – Case presenter.
- **Romaian national congress of cardiology 2015** – Guest faculty, presenter best case
- **Eurothrombosis 2015**, Como, Italy – Presenter (best case session).
- **EuroPCR 2016**, Paris, France – Guest faculty (project member).
- **NFIC 2016**, Krakow, Poland – Guest faculty, presenter (case).
- **EuroPCR 2017**, Paris, France - Guest faculty (penalist, session evaluator).
- **Work-groups conference of Romanian society of cardiology 2018**, Sibiu, Romania - Guest faculty, presenter.
- **ESC congress 2018**, Munich, Germany - Presenter (abstract, best poster)
- **EuroPCR 2019**, Paris, France - Organising committee member, guest faculty, presenter
- **EuroPCR 2020**, Paris, France - Executive committee member,

### **ACTIVE PROFESSIONAL MEMBERSHIPS:**

- European society of cardiology (**ESC**).
- European association of percutaneous cardiovascular interventions (**EAPCI**).
- EuroPCR **NextGen**.
- ESC work-group of thrombosis.
- Society for Cardiac Angiography and Interventions (**SCAI**).
- Romanian society of cardiology (**SRC**).
- Romanian work group of interventional cardiology.
