We're improving your stats and scores

Here's what's new:

- A** A new score, called Research Interest, will give you better insights into scientists' interest in each of your research items.
- A** A simple tool of your Research Interest helps you keep track of interest in all of your research items in a convenient way.
- B** A way to see the interest your research items are getting compared to others in their field or year of publication.
