

MEMORIU STIINTIFIC

Intocmit cu ocazia sustinerii publice a tezei de doctorat

Drd. Popa Ana Maria

Titlul tezei de doctorat: *Testarea multigenică la pacienții cu tumori solide – un pas înainte spre un tratament personalizat*

Centru de pregătire: Universitatea de Medicină și Farmacie „Carol Davila” București

Domeniul: Medicina

Coordonator stiintific Prof. Dr. Cornelia Nitipir

Sunt medic specialist Oncologie medicală, cu o formare solidă și o motivație profundă pentru domeniul oncologic, dobândită încă din anii de studenție. Am absolvit Facultatea de Medicină Generală în anul 2016 și, ulterior, mi-am început parcursul profesional în specialitatea menționată. Am devenit medic specialist la finalul anului 2021, promovând examenul de specialitate cu media 9.66. Toate etapele formării profesionale ca medic rezident în specialitatea Oncologie Medicală au fost sub atenta coordonare a doamnei profesor Cornelia Nitipir, pe secția de Oncologie Medicală din Spitalul Universitar de Urgență Elias. După obținerea titlului de medic specialist am lucrat în cadrul aceleiași secții.

Studii doctorale:

În Octombrie 2019, după susținerea examenului de admitere am început studiile doctorale la UMF „Carol Davila” București sub coordonarea dnei Prof. Dr. Cornelia Nitipir. Titlul tezei de doctorat este **“Testarea multigenică la pacienții cu tumori solide - un pas înainte spre un tratament personalizat”**. Tema aleasă datorită inclinației mele către mecanismele moleculare și genetice implicate în evoluția și managementul cancerului. În urma cercetării am publicat 3 articole relevante pentru practica oncologică:

1. Role of Tumor Molecular Profiling With FoundationOne®CDx in Advanced Solid Tumors: A Single-Centre Experience From Romania. – publicat în revista Cureus/2023.
2. The Impact of BRCA Mutation on the Efficacy of Neoadjuvant Chemotherapy in Advanced Ovarian Cancer. – publicat în revista Chirurgia/2024.
3. The Role of KRAS Mutation in Colorectal Cancer-Associated Thrombosis. – publicat în International Journal of Molecular Sciences/2023.

Experiența în studii clinice:

În prezent sunt Study Coordinator în cadrul următorului studiu, în care avem pacienți înrolați:

- “A Phase 3, Randomized, Open label Study of MK-5684 versus Alternative Abiraterone Acetate or Enzalutamide in Participants with metastatic Castration resistant Prostate Cancer (m CRPC) that progressed on or after prior treatment with One Next generation hormonal agent (NHA)” 04.2024.

Experienta ca asistent universitar

În februarie 2020, în urma concursului organizat de UMF "Carol Davila" București am devenit asistent universitar pe perioada determinată (fiind student doctorand) la Disciplina Oncologie, Spitalul Universitar de Urgență „Elias” București, Departament 8, Facultatea de Medicină, astfel începându-mi activitatea didactică.

Anual, începând cu 2020 am fost îndrumător de teze de licență/lucrări de dizertație, am susținut și am colaborat foarte bine cu studenții, și mulți dintre ei și-au ales oncologia ca și specialitate la examenul de rezidențiat. La momentul actual, am îndrumat peste 40 teze de licență.

Totodată, cu începerea activității ca asistent universitar am devenit și îndrumător de medici rezidenți. Am avut sub îndrumare (de când am devenit specialist) 11 medici rezidenți de o calitate excepțională, dintre care acum 2 dintre ei sunt medici specialiști și lucrează în spitale prestigioase și au luat examenul de specialitate cu note de peste 9 și alți 2 au dat examen pe post (rezident an V) pe secția unde lucrez, urmând să fim colegi.

Lista de lucrări științifice:

a) Lista celor maxim 10 lucrări considerate a fi cele mai relevante pentru realizările profesionale proprii

1. Correction: Role of Tumor Molecular Profiling With FoundationOne®CDx in Advanced Solid Tumors: A Single-Centre Experience From Romania.
